FALL/WINTER ADDITION '22

Natural materials and organic shapes dominate this autumn. The use of combined materials is the way to create contrast and excitement in an interior.

We bring warmth into an interior by using fabrics on the wall, like wall hangings. We also add another product category. After having added Tableware to our collection last year, this autumn we welcome the product category Candles in our assortment.

By-Boo always knows how to surprise. So don't hesitate and give us a call or e-mail us!
