AMALFI©

designed by GEHL & NISSEN MMD

The proud Danish design tradition is celebrated in the modern and stylish Scandinavian range AMALFI. Its clean, curved lines and delicate details on legs and handles are heavily inspired by themes and features from the 1950s and 1960s.

GEHL & NISSEN

Although Ebbe Gehl is one of Denmark's most established and successful contemporary furniture designers, his name will ring a few bells this side of the North Sea.

Despite this low profile, he has perfected a style that in many ways epitomizes what's so appealing about Scandinavian design.

For nearly 20 years now, Gehl has run the Naver Collection, a hugely successful furniture brand that's popular around the world.

Similar to the Naver collection, Amalfi harks back to the mid-century period, from the slim, tapered furniture legs that kick out at a light elegant angle, to the boxy forms and the suiting built-in handles.

BILBAO©

designed by NORDVINK

BILBAO has a light Nordic expression without compromising functionality. The identity lies in the honesty of showing all the materials as part of the expression. The combination of the contemporary mid-grey HPL, the lines of the plywood, and the crafted solid oak create a warm and clean look.
